

FRONT OF HOUSE — EXISTING → PROPOSED

EXISTING

PROPOSED

WHAT CHANGES AT THE FRONT

- 01 CARPORT ADDED**
New white flat-roof carport carried over the driveway on slim posts, ahead of the retained single garage — covered parking without touching the building envelope.
- 02 FULL RENDER OVER FACE BRICK**
The 1960s orange brickwork is rendered and painted crisp white; hip roof retained and recoated charcoal with matching white fascia and gutters.
- 03 FRONT DOOR OPENS TO LIVING**
Entry rebuilt around a timber-look pivot door with a full-height glazed sidelight and relocated so the door lands directly in the living zone — no dog-leg entry hall.
- 04 WINDOW JOINERY RENEWED**
Timber frames replaced with slim white aluminium; same openings, cleaner sight lines.
- 05 DRIVEWAY & LANDSCAPING**
Concrete strips replaced by large-format tiles with a banded inlay; tiled entry steps and porch; pebbled garden beds against the render.
